

RDA Port-A-Weld System (PWS)

PWS6x6

Self-Contained System

facilitates power source, column and boom on a mobile platform, providing a compact, turnkey welding solution with multiple welding processes including SAW, GMAW and GTAW

Built-In Fork Pockets and Caster Wheels

provide mobility options to move the welding system to your workpiece

Easy Positioning of the Weld Head

through use of integrated motorized column, manual telescoping boom, cross slides and 360-degree column rotation

Manual Cross Slides

provide 7.87" (200 mm) of fine vertical and horizontal welding head adjustment

Motorized Column with Pendant Control

provides 29.5" (750 mm) minimum to 78.7" (2000 mm) maximum under-boom vertical travel to accommodate weldments of various heights

3 year limited warranty | **1** year on electrical components

Specifications

Max Height Under Boom	Min Height Under Boom	Lift Motor	Vertical Boom Travel	Column Rotation	Control Box Functions	Remote Pendant Control Functions
78.7" (2000 mm)	29.5" (750 mm)	0.37 kW	571" (1450 mm)	Manual 360°, lockable	Up/down/stop/speed control	Up/down/stop/speed control

Primary Input Power	Input Current at Rated Load	Overall Height	Weight	Control Box Ingress Protection Rating	Optional
115 VAC	16 A	100" (2540 mm)	1,235 lb (560 kg)	IP65	Motorized in/out boom travel
